Greetings from your Highway Department,

With the winter season approaching, it's become apparent that road salt supply will be an issue again this winter. Due to New York State legislation, our purchasing options have been limited. Salt price increases of up to 75% and questions regarding availability are the situations we, along with all other municipalities, are currently facing. Many "Plan B" discussions are taking place. Your Highway Department will be making every possible effort to ensure the roads are plowed, treated and safe for travel, however, alternative methods may be used to accomplish this goal.

What we ask from you is that you please do your part and use safe winter driving practices, use of snow tires, reduce your speed, allow extra time, allow extra distance to stop, along with not following to close to other vehicles including plow trucks. It's not easy for us out there either, keeping you safe!

Please keep in mind this is a situation all municipalities, locally and statewide are facing and are doing their best to prepare for and to keep-you, the public safe. Your safety is our goal! Thank you for your patience and understanding.

Sincerely your Highway Superintendent,

Lee Wohlhueter
