1. Review Extension of Sanitation Contract

Supervisor DePasquale stated that the Waste Management Contract is up at the end of the year. Moving forward that the town would look to get a better rate by renewing the contract with Waste Management. Surrounding towns in the area that put their refuse contract out to bid did not see a better rate. Patrick Martino Public Sector Solutions Representative from Waste Management will be attending tonight's meeting to update the Town Board on the extension of the Waste Management contract.

2. Review Pending Code Changes

Town Board reviewed the following code changes:
Grass height in excess of eight inches to all residential properties within the area of fifty-foot frontage and back and fifteen feet side yard.

Town Board discussed SUP for Dog Kennels and changing the process for residents who have more than three dogs. Residents would be allowed five dogs and would not have to go through the process of a SUP. Language would be changed for Commercial Kennels to Commercial Canine Activity and a minimum of acres would be determined. After a lengthy discussion on dogs in a commercial business versus dogs allowed in a residential setting the Town Board tabled the matter for a later date.

Language for limited frontage in sections of the code book for a minimum of two hundred and fifty feet was tabled for clarification from the Town Attorney.
