### I.            June Minutes

The Board Members reviewed the June minutes and Linda motioned to approve the minutes and Craig seconded. All were in favor.

### II.           Solar Panels

The Board Members continued their discussion regarding their environmental concerns for solar panels from the June meeting. Ellen was able to ask her contact regarding state and government regulations for solar panels. As of right now, there's nothing in writing regarding solar panels. The Board Members will submit their environmental concerns to the Planning Board for the Colden Master Plan. Craig will start a draft to address the Planning Board with points of interest and concerns.

### III.          Hydro-Fracking

A Board Member was approached by a few residents regarding hydro-fracking and wanted to know if there were any updates. The Board Members decided that residents should attend a Town meeting to address their concerns and questions.
